

FILE SPECIFICATIONS

Accepted formats, PhotoShop, Illustrator, CorelDraw
or high quality PDF, EPS, TIFF or JPG files.

DO NOT use compression on JPG or TIFF files (LZW etc.)

Any files larger than 5Mb must be sent via CD.

If supplying scanned photo's, you must convert them to CMYK at 300dpi
Do not supply RGB images which is the native format for scanned images.

If supplying artwork in Photoshop, Illustrator, or Coreldraw
format, please convert all fonts to curves / paths.

If using layers, shadows, or transparencies ensure artwork
if flattened to one layer. We DO NOT accept multi layered files.

Screen colours are never accurate, please check your
Pantone or CMYK specifications.

BLEED: All files that require a bleed will need a minimum of
2mm beyond the trim size of your artwork.

DO NOT attach any trim marks.

eg: Trim size of 55mm x 90mm, = Page size of 59mm x 94mm
ie File dimensions should be 59mm x 94mm

PLEASE NOTE

Files that do not meet these specifications will incur a surcharge of **\$80/hr (plus GST)**

**Print Magic Pty Ltd will not take any responsibility for files being
supplied incorrectly which may affect the finished product.**
